

MM-429

A FURTHER COLLECTION OF DIPTERA FROM
YUGOSLAVIA WITH LOCALITIES AND NOTES

by

RALPH L. COE

British Museum (Natural History)

PART THREE

Chironomidae
Sepsidae
Carnidae

Blepharoceridae
Sciomyzidae
Chloropidae

Dolichopodidae
Milichiidae

(with some additions to several families already published in this paper).

FAMILY CHIRONOMIDAE

SUBFAMILY ORTHOCLADIINAE

1. GEN. TANYPUS MEIG.

1. *T. punctipennis* Fabr. Macedonia: Prespa Geul, Oteševo, on hotel window, 20—27. VI, 1 f.

SUBFAMILY ORTHOCLADIINAE

2. GEN. CRICOTOPUS V. D. W.

2. *C. triannulatus* Macq. Slovenia: Rakovo Dolina, River Rak, 25—30. VII, series m, f; Dalmatia: Novi Grad, on stony hill slope, 27—31. V, series m, f.

3. *C. bicinctus* Meig. Slovenia: Rakovo Dolina, River Rak, 25—30. VII, series m, f; Macedonia: Lake Ohrid, on hill north of town, 1 m, also from grasses by canal, 1 f, 14—19. VI.
